

GLEBE POLLINATOR GARDENS

Can you spot any of these native plants in a pollinator garden?

☐ Milkweed

☐ Common Yarrow

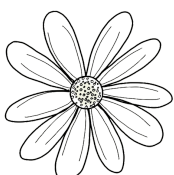

☐ Black-eyed Susan

☐ Dense Blazing Star

☐ Woodland Sunflower

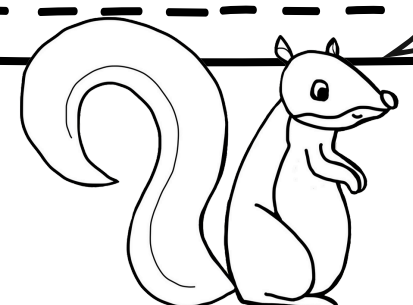

☐ Purple coneflower

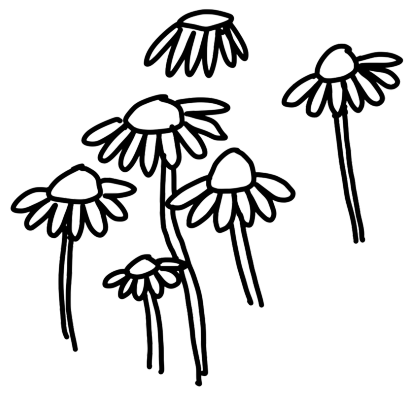

For more information feel free to check out information online:

- "Build a Pollinator Garden - Protect Nature Challenge" by the Government of Canada
- Pollinator.org
- Kidsgardening.org

I have lost 5 of my acorns on this page. Can you please help me find them?

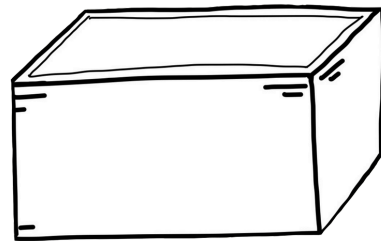

Bees & Butterflies

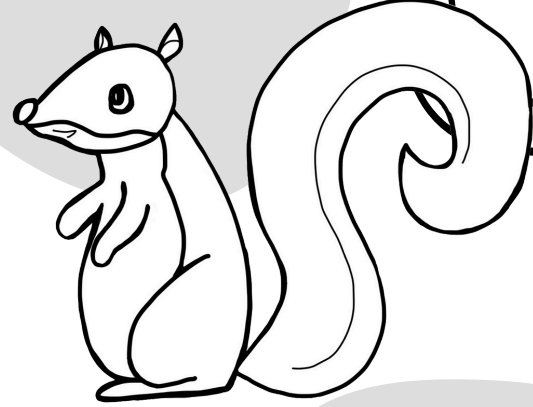

Fantastic! You just started your pollinator garden journey!

You learn about the different types of pollinators (birds, bats, bees, butterflies).

You find a great location to have your pollinator garden.

START HERE!

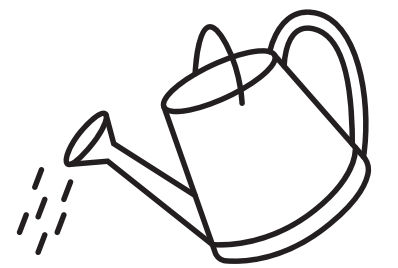

The bees, butterflies, and birds need your help!

Try racing against your friends to see who can help build a pollinator garden first!

Please take turns rolling a dice to determine how many spaces you can move your marker. Read the descriptions on the board as you go!

You regularly water the garden while waiting for your seeds to sprout.

You learn about how pollinator species carry pollen to plants to help them thrive.

Oh no! It's still winter. It's not the right season to begin planting (move backwards 1 space).

You begin to research which pollinator plants to include in your garden.

It's early spring. You begin to prepare the soil and plant seeds!

Write a fun song about bees and sing it! (move forward 2 spaces).

You visit a pollinator garden in the neighbourhood for inspiration (move forward 1 space)

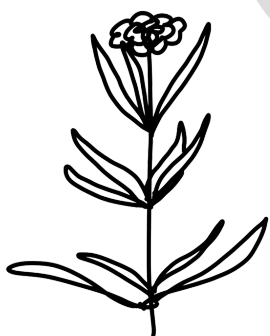

You do some weeding around the new plants.

Your plants are beginning to grow. Yippee!

You teach a friend about pollination and pollinator gardens.

You join an environmental club at your school. (move forward 1 space)

You learn a cool fact about pollination.

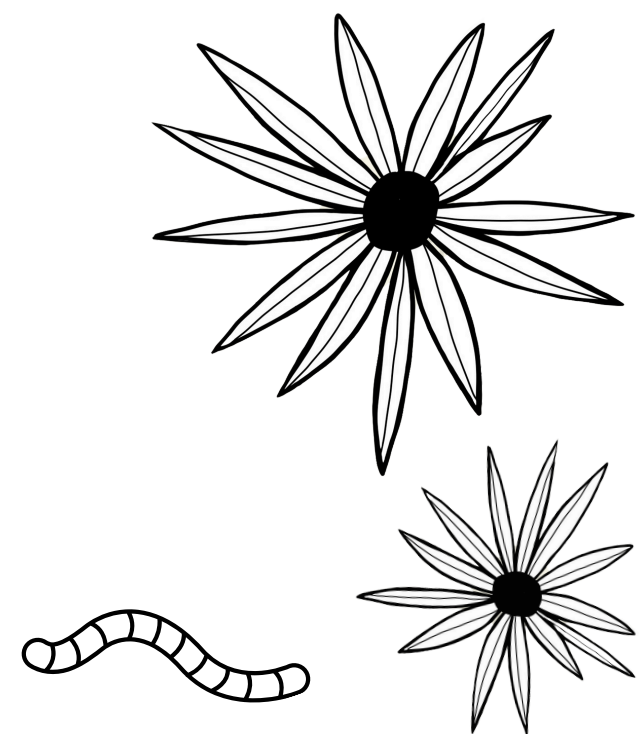

You draw a beautiful picture of your garden.

Make a garden joke! (move forward 1 space)

While tending to your garden, you observe a bird you haven't seen before.

You find a worm in the garden! Amazing! (move forward 1 space)

Your neighbourhood is very happy about how the garden is doing!

Congratulations YOU WON! Your community now has another beautiful pollinator garden!
